"Oh look at those corny hairdos! And those weird clothes!" When reminiscing through your parents' high school annuals, have you ever realized that you might be saying that about your own annual ten years from now?

Things that we do and things that we like will change drastically over the years. Our tastes adapt to the latest fads.

To capture our special tastes during 1981-82, the Publications class took a survey. Every student in the high school received a survey sheet. We received 64 surveys out of the 84 handed out. The survey consisted of 15 questions ranging from fashion preferences to favorite political figures.

Hair and clothes fashions of a certain period of time are always remembered and are captured by pictures. The favorite hairstyles, as indicated by the survey, were the feathery and curly looks. French braids were also mentioned and are a popular new fad. The "preppy" look is in and dominated our survey with fashion favorites such as tabcollared shirts underneath sweaters. Loafers, which feature a low heel, were the most popular shoes, but there are still quite a number of "tenny runners" walking up and down our halls. Good ole blue jeans haven't been forgotten and were much alive in the survey with Lee's and Wrangler's being the most popular brands.

Things such as foods ore not concretely remembered by pictures. The food that was liked most was pizza. The second choice was steak. The survey contradicted the traditional stereotyped view of teenagers eating "burgers and fries."

Hove you ever heard your parents talk about a movie star of their time and con only lough at you when you innocently ask, "Who's that?" Fame is often short-lived. Actors, sports figures, and television programs all grow old and lose their zest with few exceptions.

The favorite theater movie this year was *Raiders of the Lost Ark* starring Harrison Ford. He was searching for ond found the Ark of the Covenant of God through many hair-raising events. The second movie was *Stripes* starring Bill Murray. Dominating television programs this year was "M*A*S*H." "Hart to Hart" was the second choice. Topping the entertainer list was the crazy, almost-always-crude, British comedian Benny Hill. Steve Martin was second, followed by Burt Reynolds, John Schneider, and Bill Murray.

Football. The most followed sport in our school. The Dallas Cowboys was the most popular team, and the local Kansas City Chiefs was second. The Cowboys was by for thought to be the best team in that sport. Boseboll was second in our survey with the Royals being the favorites, and the Dodgers were picked as the best team. The favorite sports figure was the Kansas City Royals third baseman George Brett.

Par Benotor is by for our favorite female

The political idol or Midway was Ronald Beagan.

One of AC/DC's top selling topes and albums was the Bock in Block cut.

Rubik's cubes were boggling everyone's minds this year, Mr. Ninemire works intently while Teresa Berry shows Steve Libel and Steve Becker the solution.

Elvis Presley, the 'twist," and Harry 5 Truman, all represent the 50's when some of our parents were in high school. Musicians and politicians always characterize a particular time period. The tastes of music change with the coming of new sounds, as political figures change with the coming of elections. The fame of singers

and groups is much like that of actors and T.V. shows — short-lived. (with exceptions) They often fade out and eventually are knocked out of the spotlight by some newer, hotter groups. This is why the music part of our lives characterize our special high school years. "Rock and roll lives on," as our survey indicated by the response. The favorite male singer is newcomer Rick Springfield, with hits like "Jessie's Girl" and "I've Done Everything For You." Pat Benatar landslided in as the best female vocalist. She has many, many hits which include "Treat Me Right" and "Fire and Ice." AC/DC was the best liked group, and they sing "Back in Black" and the popular "Dirty Deeds."

WELISTENEDWELISTENEDWELISTENEDWELISTENEDWELISTENEDWELISTENEDWELISTENEDWELISTENEDWEL

Students aren't pictured as being up on political issues, but they are forced to become more aware of them because of the current domestic and economic situations. The students at Midway definitely had a political idol. Even though his economic programs are widely criticized, President Ronald Reagan was granted the honors.

"Though all men be made of one metal, yet they be not cast all in one mold." (John Lyley)

Individuals. Each of us is different in many ways. That's what makes life interesting.

"You've got personality," as the song says. Everyone has one, but some people have a more unique sense of individuality that causes them to stand out from the rest.

There are also events that happen within the school and around the world that stand out from the rest. In August, the first day of school was held on the 24th. Jim Frey, manager of the Royals was fired and Dick Howser was hired. Jimmy Carter and his family were touring China and Japan.

During September on ice cream social was held for the teachers by the St. Benedict's church, and the Alumni football game was played. September also brought us square root day on the 9th (9-9-81), the lost one until 2001, and the first woman ever appointed to the Supreme Court, Sandra D. O'Connor, won the approval of the Senate.

Many friendships ore formed during a person's lifetime. So many that it would be impossible to attempt a count. As we grow older, it seems that we develop friendships that ore more lasting and mean more to us than just shoring a few secrets or sitting by each other at lunch. Friends ore now someone to hove fun with and confide in. Knowing that someone cores and accepts you is important. Teresa Berry described a friend as "Someone who knows me and likes me anyway."

Like friendships, the events of a lifetime ore too numerous to count. A few of the things that happen ore remembered, though.

In October, yearbooks went up \$2.00, Anwar Sodot, President of Egypt, was assassinated, Borboro Mandrell was named entertainer of the year, and the Dodgers won the World Series.

November proved fatal for three stars. Jock Albertson (Chico and the Man), William Holden, and Natalie Wood all died. Postage stomps took another jump from 184 to 204, the space shuttle Columbia went into orbit only to return because of a defective fuel pump, and Princess Diona is expecting.

There are ups and there are downs that all add in to the part of life we call growing up. There is laughter and there are tears, but learn from these obstacles and overcome them. High school is a time for learning to overcome our prolems and carry on later in life on aur own Events that were happening at school during December and January included ups and downs. In December, juniors and seniors traveled to Troy for Career Day and some students went to the annual County

happening at school during December and downs. In December, juniors and seniors traveled to Troy for Career Day and some students went to the annual County Government Day. A bright spot in the month was the new vending machine with 22 selections. January brought a major snow storm throughout the country on the 4th, Vicki Lewis changed her last name to Winchester, and Mr. Allen had surgery.

WELAUGHEDWECRIEDWELAUGHEDWECRIEDWELAUGHEDWECRIEDWELAUGHEDWECRIEDWELAU

In the outside world people were also trying to make a go of it, even though minimum wage stayed the same. The last month of '81 proved eventful. The 7th marked the 40th anniversary of Pearl Harbor, the first test tube baby was born in Narfolk, Virginia, and Reagan threatened the Libyans because of their assassination plots an him. In January, zany Paul Lynde died at 55, an Atlanta jury was chosen for Wayne Williams, and the 49'ers won the Super Bowl. The month also brought record breaking temperatures which caused the wings of a plane in Washington, D. C. to ice up and crash in a river.

The Science Fiction students work busily on their test.

During February, basketball was in full swing. Jim Holling sprained his ankle at the Highland game. Speech was started, and Don Brox won the Publications' gas raffle. Tragedy struck as the Milo Long home burnt early on the 15th.

Other tragedies were occurring. A semi overturned on the the Denton corner, many area Sofewoy stores were closed, and Wayne Williams was found guilty of ot least two of the Atlanta murders.

During the month of March, Jim Robison received his Eagle scouting badge, school was canceled due to an ice storm, the girls' BB team won the first game of Sub-State, and Sophomores bought their class rings while Johnny Corson was arrested for DWI, Williams was found guilty of the Atlanta murders, and John Belushi died from a cocaine overdose. While Charlene Tilton announced she was pregnant, the planets lined up, gas prices dropped to 97¢, and the Royals lost their exhibition game. Midway students attended the Chemothon and were dismissed early for the lost day of the third quarter, Jr. High hod a concert, and the high school competed in the Moth-Science day at Highland. Junior Miss and a Speech meet at Troy were March 20 and track practice started the 22nd. Dolly Parton announced her divorce, tornadoes passed through Kansas, and three cooks at Troy quit over a no-smoking rule. The space shuttle went into orbit March 22 and landed the 30th. Henry Fonda and Katharine Hepburn won Oscors for Best Actor and Actress in On Golden Pond. Chorus song at Atchison for regional competition and students attended the Vo-Tech Business Contest.

During the month of April, the juniors and seniors went to MacBeth. The HCC Speech and Drama students put on a comical, the Horton stage bond performed a musical, and pictures were token from the hall. The girls' ensemble song for the Catholic Church in Troy, and the seniors put on their senior ploy. There were also cheerleading tryouts. On April 3 Argentino took the Falkland Islands from British control, and Mr. St. Helens erupted twice. Royals started their season on the 5th and record low temp, were set in Konsas getting down to 16° with 11/2 in. of snow on the 8th. Three days later the weather reached a high of 60°. The first woman and block man were picked to fly in space, the French invented a new birth control pill, and John Hinckley's trial started on the 27th of April. Spring fever hit Midway with the seniors on sneak, the Awards Bonquet, Spring Teo, election of Stu-Co officers, and seniors lost day of school. At the some time, the Hiawatha mayor was blackmailed, a nine-year-old girl from Gallatin was kidnapped, Sober-Aid for drinking drivers was marketed, and Dean Martin was booked for DWI. An endof-the-year dance was the 15th, Boccoloureote and Graduation exercises were held, and the school year ended May 21, 1982.

The time is August, 1969. The place is the Midway Elementary School at Severance (that no longer exists). Thirteen bright-faced five-year-olds, sleeping mots in hand, bound off of the bus for morning kindergarten. They greet Mrs. Corter brightly. When noon rolled around, these little rug rots called it a day and nine more plagued Mrs. Corter for the afternoon class.

Over the course of the years, 25 different kids hove come and gone. (Not including the twelve that hove remained here 13 years.) One of which has gone but come bock is Teresa Berry. Stormin' Norman Richards has been popping in and out ever since third grade and left the class with memories of his unforgettable dancing rechniques. Or how about Mary Sue Hulse that hod a lough like a machine gun?

Out of the eighteen seniors in the class, twelve hove stuck it out at Midway for thirteen years. They ore Jerre, Sheri, David, Lori, Charlotte, Koren, Cathy, Jim, Rusty, Chuck, Mary, and Mary Jo. The six seniors that haven't been here thirteen years come at various times. Melanie Hundertmark come into the class in first grade and Tommy joined the ronks in fifth grade. Gory Grider blessed us with his presence when we were freshmen, and Teresa rejoined the class our sophomore year. Lost year, two new classmates were initiated into the class of '82, Melanie Boird and Lewis Johnson.

Each of our eighteen seniors has done something to establish their own individuality. Jerre Baker had trouble finding her way to the finish on cross country courses.

Melanie Baird, the 1981 Homecoming Queen, had a terrible time getting home on that muddy night.

Cathy Cluck, while running backwards in P.E. in sixth grade, fell and broke both of her arms.

Teresa Berry fainted while we were practicing our marching in first grade.

Rubik's cube king, David Becker, was known for changing the words in Jr. Scholastics during Jr. High to make outrageously funny stories.

Heart-throb Jim Halling has been the victim of all of the crushes in our class since kindergarten.

Louis "Appleseed" Johnson is known for peddling his apple cider to Midway buyers.

"The Pump" Grider always has a supply of Vitalis Hairspray in his locker.

Toilet queen, Lori Winchester, played tricks on innocent sitters by sabotaging the toilets with Saran wrap and Vaseline.

Karen Soyland, an addicted note writer, got caught in sixth grade and had the note pinned up on the bulletin board.

Head Cheerleader, Charlotte Elder, did the splits in a seventh grade tryout and her

tennis shoes squeaked all the way down.

Klutzy Sheri Becker tripped on some coat rings that were hanging on a coat rack in a store in Kansas City on the Girls' M-Club trip lost year.

Homebody Mary Jo was the kid who missed home the most in first grade.

Spacey Mary Myers was in orbit at the start of a cross country race and crash landed on Jerre Baker.

"Chuckie" Swinford, ace technical fouler and ace accountant, is the shyest guy in our class.

Rusty, "Super-fly, voot-voot" Godfrey used to drive Lois Wright to a fit in Jr. High by finding the hidden erasers for on eraser fight during band-study hall.

Tammy Sowards, the quietest girl in our class, had hair down to her waist when she came here in fifth grade.

From kindergarten to seniors in high school, we've all experienced good and bad times. Mode friends and lost friends. These years are all past and will never be seen again except through memories, such as these above, that will be with us until we are no more.

POEM TO THE SENIORS

Another year goes passing by
Another Prom is here
To some this brings a joyous smile
To others, brings a tear
For four years you hove tread a path
From down to setting sun
But now the path gets steeper
And the climb has just begun.
We're very glad to know you
We'll miss you when you've gone
And to the class of '82
We dedicate our Prom

— The Juniors

The 1982 Jr.-Sr. Prom was held on April 30 in the high school gym. The juniors worked many long, hard hours decorating the gym to the theme of "Precious and Few." The supper, which was prepared by the juniors' mothers, started at 6:30. The class prophecies and wills were read by Susan Ricklefs and Jim Holling. The donce started at approximately 9:00 p.m. with music provided by "Block Frost."

After the donce, everyone went to St. Joe to see a movie. And then it was bock to Berry's or Albers' for breakfast.

SUCCESS

Success means many things in life
To others it means happiness
And the blessing of good health
To some it's often measured
In possessions gained and won
To others it's a life that's filled
With worthwhile things they've done
But no matter how you measure it
One thing is always true —
Success is what you make it
And it's waiting there for you.

GIRLS'M-CLUBGIRLS'

Girls' M-Club underwent a major change in the 1981-82 season, and the thought of not having it at all crossed many peoples' minds. Changes were made, however, and they decided to keep it. One of the major changes was made by eliminating the point system. This year an Honor's Program was set up, and the members are keeping their own attendance charts.

Another change this year was that there was no M-Club trip to Kansas City. Instead the girls have pizza parties at the end of each season.

With all things considered, the members are hoping for a more successful year next year.

As usual, the squad was picked last spring, but the student body didn't need to vote because there were only eight girls that tried out, just enough to fill the eight positions available. Charlotte Elder was elected head cheerleader by the squad.

"It was a definitely challenging year," said Jane Denton because of the variety of personalities within the squad. The 1982 speech season started off with only one change this year; the coach. This was Mrs. Stillings' first year in charge of speech.

Speech is not a regularly scheduled class, so students participating schedule time throughout the day to meet with Mrs. Stillings. Speech is competition of oral activities among high school students. There are events which involve acting and some reading from the literary works is done. Speech is not only educational, but it also helps students to talk and express themselves in front of others.

Mr. Boird is a person you con talk to very easily and get along with quite well. He likes Midway because of the attitudes of the students. A small school, he feels, is a big advantage, and he also enjoys the faculty and staff. Charlotte Elder said "He finds interesting ways to teach that aren't boring either."

His advice to the seniors this year is "Be themselves and like themselves. Find something they con enjoy doing in life and remember they are on important person."

Andy Clements said, "Mr. Boird's little head shines from afar."

Besides counseling and teaching, Mr. Boird also coached basketball, sponsored Notional Honor Society, and directed the Jr. and Sr. Ploys.

Something exciting that has happened to Mrs.
Triplett this year was the child development class which was a delightful success. I believe they reached their objectives and enjoyed the activities.

She hod a new class this year called Nutrition. She said, "this course should be of interest to many students because people ore conscious of nutrients their bodies receive and also of weight loss." Brenda Matthias was one of the students who took the class. She said, "Nutrition was interesting but would be more fun if more people were in it."

Mrs. Triplett is also a junior class sponsor. She said, "It went very well. The class has shown their cooperativeness and good work at the dinner theater performance and prom."

As the football coach, 7:30 p.m. on Fridays is also another one of his favorite times because "it's enjoyable to watch our football team beat up on the likes of Highland, Powhattan, Highland, Bern, Highland, Wetmore . . ."

Mr. Juhl's advice to the seniors is "Go to college. Whether you plan to graduate or not, it's on experience you'll always remember."

This year Mr. Ninemire has much the same classes; but he said, "It seems as if there are more activities going on." "Mr. Ninemire has a way of changing history to fit the answers on his test despite what the book says," commented Sheri Becker.

Mr. Ninemire's advice to the seniors is, "Work hard to reach your goals in life."

CHESTER WINCHESTER WINCHE

"This year is much quieter without Todd and Steve," was a comment mode by Mrs. Winchester when questioned on how the year was going. Even though the year is quieter, things haven't slowed down for her. Quite the opposite in fact because Mrs. Winchester hod a change in class scheduling. She also sponsors the Freshman class and Girls' M-Club. Since she teaches more classes, she is in contact more with the students. Steve Becker one of her many students commented, "she may be short, but she's rough."

"Generally 'Le Leath' is a funny, funny guy," was a remark mode by Sheri Becker. That is how most students would describe Mr. Leatherman if you questioned them. For Mr. Leatherman the kids ore what he really likes about Midway. He feels he con communicate with all of the students and that produces a good feeling, This year has been different for Mr. Leatherman in the aspect that he coaches football instead of cross-country. Mr. Leatherman's advice to the seniors is to not dwell on the negative things of life, but to accentuate the positive aspects. Another piece of advice to all students is, "if you don't know how to swim, don't rock the boot."

"The kids ore good to work with, and at Midway there is a friendly atmosphere," Mr. Robison commented when questioned on how he would describe Midway. This year Mr Robison is teaching many of the science classes that he taught lost year and is Junior class sponsor again. The only difference for him this year is the students; they appear to be more interested in their work, he said. Rodney Ricklef's comment "he makes class interesting" could be port of the reason students ore working harder in his classes. Mr. Robison's advice to the seniors is "develop a good outlook on life."

HONERHONERHONERHONERHONERHONERHONER

Hoving a one-to-one relationship with his students is what Mr. Honer likes most about Midway. He is a very easy-going sort of guy.

Most students enjoy his classes so they enroll in them every year. Sheri Becker said, "He acts like one of the kids so that helps us get along with him better."

Mr. Honer thought this year's seniors hove a more positive attitude toward the underclassmen. The "espirit de corps" among this year's student body is a tribute to the seniors' leadership.

His advice to the seniors is "No matter what you do go to college or trade school. I feel on education is a journey and not a destination."

Besides teaching physical education, Mr. Honer also coached basketball, cross country, and track. He was a trainer too.

"What shall we sing today girls," asks Mrs. Elder.

If I practice long enough maybe, I'll learn to play chopsticks.

When you walk toward the lunchroom and hear o piano being played, you can peek through the music room window and see Mrs. Elder playing it. This has been the scene for several years.

Even though she has been there for 11 years, she feels as if it really hasn't been that long. But in music, changing teachers every one or two year's doesn't help students excel because you keep building on the previous years experience. She likes it here because most of the students toke pride in doing a good job. That's what makes a good school she said. school, she said.

She said, "This senior class has extra ordinary students." Her advice to the seniors is "Keep your optimistic views and keep working to achieve the goals you have in mind."

MORLEYMORLEYMORLEYMORLEYMORLEYMORLEYMORL

Mrs. Morley has been our art teacher for 2 years. She said, "I hove never met a bunch of people as different in personality and frame of mind as the group of Midway. As small as Midway is, I feel it's the perfect size for one-to-one interaction with a teacher/student relationship. All the personalities I've met seem so unique and interested in giving me their opinion of life, as well as receiving mine. Everyone is involved in one or more school clubs and shows on overwhelming enthusiasm for the school itself. That in itself is what makes it so fantastic to be port of Midway."

"She is a great help to us during homecoming and Jr. ploy and the other activities with helping draw most of the posters and programs, etc. We couldn't do it without her." said Lori Nigus.

Her advice to the seniors is "after a while life will seem so short a time to get everything you wont from it. Grab every opportunity. Be different, and you will be received by people with more respect and envy than you could ever expect. If you go after your goals and really try, you will succeed."

These three people ore usually forgotten because they don't spend much time with the high school students, but they ore just as important as the others.

Mrs. Honer is teaching secondary reading. She said, "The secondary reading class I'm teaching this year is willing to try new ideas." She is also Girls' M-Club sponsor.

Mrs. Hill reaches practical moth. She said, "This year is different because of the students as a whole. The student body has not changed much. The freshmen hove matured somewhat from lost year."

BOARDMEMBERSBOARDMEMBERSBOARDMEMBER

The Board Members are all but a silent group here at school. They meet the first Monday every month faithfully to make decisions, etc.

The Board Members ore setting examples in every day life for students and others to follow.

A small rown was to hove a celebration, and the town council thought it a good ideo to build a huge cask to hold the drink for this festive occosion. The citizens all agreed it would be a good ideo if each of them would contribute one bottle of his of her best wine to fill the cask.

The day arrived, and at the height of the occasion, the cask was topped and the first gloss was handed to the mayor. But even before it reoched his lips, a gasp went up from the crowd; the liquid was absolutely clear

You see, the townspeople had reasoned that his or her small contribution would not be missed and instead of contributing a bottle of their best wine, had instead given a bottle of water.

Unfortunately, too many of us ore using this some line of reasoning. We ore holding bock and shirking our full responsibility. If product and service quality is not to weaken, we should contribute our full shore of effort however small the task.

Quality work gives you dignity and satisfaction. Always keep your personality and your performance above board and above water.

You, the students of Midway and especially the Seniors of '82, remember success will be yours as long as you seek excellence.

I, Melanie Baird, being of confused mind and body, do hereby state my last will and testament:

To Tina Ferger-Berger, I will a few inches of my height so she will be able to see over the counter at the concession stand without standing on her toes.

To Brenda Matthias, I leave my disco shirt so she can add to her collection and the ability to not be so "peaky" about things.

To Andy Clements, I leave another person to listen to him cut down the way the basketball players are playing while he's sitting on the bench.

To Jim Robison, I will my expert bowling skills so he finally will be able to beat me at least one game, the ability to remember the endings to his stories, and someone else's car to make fun of.

I, Jerre Baker, being of short mind and body, do hereby will the following:

To Sheryl Johnson, the ability to make fender-benders exciting, like chasing trains instead of just backing into parked cars.

To Mr. Leatherman, a new ''lentil purchaser'' who's very efficient but only charges \$5. To my little brother, Jim, the best of luck next year in getting along with the ''big boys.''

I, Sheri Becker, being of wafer sliced body and moldy brain, do hereby will the following: To my little brothers, someone to take my place at school.

To Jane "Skilly" Halling, my nickname Scary.

And lastly, to all students who need a haircut, a free lunch hour appointment.

I, Teresa Berry, being of underdeveloped mind and overdeveloped body, do hereby will the following:

To Etola, a free ride every weekend to spend time with me at college.

To the freshman girls, a personal interview on the Twilight Zone.

To Sheryl Johnson, a pro-type VB and BB team to make her senior year as fun as mine.

I, Cathy Cluck, being of too little mind and too much body, do hereby state my last will and testament:

To Jane Denton, I will another nice person to listen to all her problems.

To Jim Robison, I will a paved back road whenever he chooses to be on one at 2:30 in the morning.

To my little sister Sheryl, I will all the fun I had in high school and the ability to keep away from the pranks of the seniors.

I, Charlotte Elder, being of much body (or so eveeyone tells me) and not enough mind, do hereby state my last will and testament:

To the next head cheerleader, I will lots of patience and a book of original skits.

To Andy Becker, I will lots of my unnecessary padding so he can enjoy long bus rides.

To my cousins, Janet, Carmen, and Sue, I will my basketball abilities to do with what they will and all the fun I had cheerleading.

Finally, to Joe Albers, I will a great senior year like mine was.

I, Rusty Godfrey, being of exceptional mind and adequate body, do hereby will the following:

To Mike Becker, the ability of becoming a "coachable" player for Coach Baird.

To my sister, Lori, the ability to get along with the rest of the girls in her class for at least one day. And finally, to Brian Swinford, all of the idiotic nicknames I have acquired through high school.

I, Jim Halling, being of sound mind and body, do hereby state my last will and testament:

To Andy Clements, I will 100 lbs. of foot powder so his shoes won't rot so fast.

To Mike Becker, the ability to go out for cross country for four years and not accomplish a single thing.

And finally, to my little brother and sister, Donald and Jane, any luck that I have left so they won't

I, Melanie Hundertmark, being of asinine mind and preposterous body, do hereby will the following:

To Brian Swinford, someone else who appreciates his cute ears and blood clutters and can remind him where it is at.

To my little brother, Jeremy, a patch of ice in front of the bus every day so he can dance and a book entitled 1,000,002 Amazing Facts.

I, Mary Myers, being of small mind and body, do hereby will to the following people: To Brien Heinen, a book and a new partner to help him beat the system while taking tests. To Jim Betts, I will my ability to get up at 5:30 in the morning for cross country. To Scott Elder, Kevin Zeit, and Andy Clements, I will my ability to go out on weekends and have everything I need; I think you know what I mean guys!

I, Tammy Sowards, being of no mind and lots of body, do hereby will the following: To Teresa Long, a life long fantasy to fulfill her dreams.

To Karen Richey, someone to stand in front of her locker when she wants in it.

To Mrs. Ringe, another aide almost as good as I was.

I, Karen Soyland, being of kinky body and mind, do hereby state my last testament: To Andy becker and Steve Libel, I will a life time supply of Rubic's cubes to occupy all of their time in study hall.

To Brenda Matthias, I will a job at Godfathers.

sprain their ankles while playing basketball.

To Kelli, my big, little sister, I will the ability to stay out of trouble or at least the ability to never get caught.

I, Chuck Swinford, being of strong body and weak mind, do hereby will the following:
To Andy Clements, my ability to play basketball; he needs it badly!
To Steve Becker, my book on 20 different ways to start a Plymouth, complete with sledge hammer.

I, Mary Jo Walsh, being af adequate mind and body, do hereby state my final will and testament: To Mr. Leatherman, I will another senior that can sit in the lobby all day and insist that she doesn't have classes to go to.

To the people who sit in the lobby over noon hour, I will something to make it exciting like it used to be at noon so they can quit complaining.

Finally, to Mr. Honor I will another group of ambitious senior girls that sleep in the lobby and a PE class full of girls that won't complain.

Being of *great imagination* that my body is terrific and my fantastic brain is superb, I, Lori Winchester, do hereby bequeath my last will and testament:

To Jane Denton, my ability to take dictation at 130 w.p.m.

To Brenda Matthias, my many diets.

To Carolyn Horton, a date with your favorite guy, Mike Anderson.

To whoever wants what's left, you can have it!!

PROPHECIESPROPHECIESPROPHECIESPROPHECIESPROPHEC

MELANIE BAIRD — Melanie Baird, after graduating from Midway High School, has gone on to become a famous song and book writer. Her two books are *The Joys and Sorrows of a Homecoming Queen* and 101 Things To Do When You're Stuck in the Mud. She has recorded her own version of "I Love a Rainy Night."

JERRE ANN BAKER — Jerre Ann Baker, better known as the "all thumbs" science student, can now be found in college breaking more science equipment. She is also in strict training to reach her long-life goal, to participate in the next Olympic games. She will be running her specialty, the mile, in 5:36.6. She's expected to be Babe Dedrickson's successor and also bring home the gold medals. Jerre Ann keeps up her training without any play, so she enjoys most of her Saturday nights with Danny Rush. You can also find Jerre traveling around to schools giving lectures on how to put a dent in your car and still miss the train.

SHERI BECKER — After ''Scary'' graduated from high school and Crum's Beauty School, she opened her own ''Crummy'' beauty shop in the high school girls' bathroom. In her spare time, she can be seen leading her little Rumbaugh's around the streets of Purcell.

TERESA BERRY — Teresa Berry has started a very new and active life by moving to Hollywood and taking over Jane Russell's T.V. commercial, for you full-figured women. She has also taken Doc Severinsen's place on the Johnny Carson Show. She can be seen peeling around in that old VW she still has.

CATHY CLUCK — Cathy Cluck is now seen going from door to door in her little mustang ringing door bells selling Avon.

CHARLOTTE ELDER — After graduating from Midway, she went on to become Miss America and Miss Universe. She has also become a well-known author with the best seller entitled 160 Ways to Become a Queen. Having been married for two years to Joe Albers, alias Joey Bean Head, she now has a one year old girl whom she teaches to walk, talk, and pose.

RUSTY GODFREY — Rusty "Vit Vit" Godfrey, alias Bugeye Fly, is the proprietor of Superfly's Video Arcade in Moray, KS. This business venture has been less than prosperous because Vit Vit is running off customers so he can play the games himself. This spring, as he has for the past twenty years, Rusty reported to the Kansas City Royals spring training camp in Florida. By the time he had arrived, via his green bomb, the team had already moved north. Rusty has indicated that he will try again next year.

GARY GRIDER — Gary "Guard" Grider, after graduating from high school, went on to become an honor student and All-American cornerback. After earning a degree in commercial art, Gary was employeed by McDonald Restaurants Inc., where he now designs and oversees the manufacturing of Ronald McDonald hand puppets.

JIM HALLING — Jim "Weak Ankles" Halling, after playing basketball for four years at K-State, was drafted by the Dallas Mavericks where his best friends are playing too, Rolando Blackman and Mark Aguire. In the off season Jim is running an FCA basketball camp where he is teaching young men the finer arts of basketball.

MELANIE HUNDERTMARK — After graduating from M. H. S., she can be found at the local riding academy or at an artigallery. Melanie married a horse trader and made her dream come true. She has all the horses she will ever want.

LEWIS JOHNSON — Lewis Johnson, better known as Louie Appleseed, when not being the fearless fire fighter, can be found in the backwoods of Troy riding his horse Elmer and gunning down helpless beavers. Lewis can still be found peddling his cider at Midway after all these years.

MARY MYERS — Mary Myers, commonly known as "Space Case," can now be seen at K. U. showing people how to space out!! She is also giving lessons on how to spike your opponent so they won't do good and spike yourself at the same time.

TAMMY SOWARDS — After graduating from M. H. S., Tammy decided she wanted to run around for awhile. A year and a half later she decided she wanted to be a hairstylist, so Tammy went to a beauty school. After finally completing her course, she graduated. Now she owns her own shop and can be seen with her hubby and two little boys.

KAREN SOYLAND — Karen Soyland, better known as Kinky, can now be seen spending her days roaming around at college and her nights with Tyrone! In her spare time she has written a book called 165 Ways of Laughing and Not Even Know What You are Laughing About.

CHUCK SWINFORD — Charles ''Chucky Baby'' Swinford, son of a banker, will release his new hit album ''Chucky's in Love'' next week to the delight of all his fans. While not singing Chuck can be seen at home breeding sows.

MARY JO WALSH — After graduating from M. H. S., Mary "Toe Joe" Walsh married Todd Heinen, which was the high point of her life. After giving birth to a bouncing baby something or another, she began an exciting career in computer science and is now the soul supporter of her family.

"What do you think you're doing?" glares David Becker while Jim Holling studies.

CLOSINGCLOSINGCLOSINGCLOSINGCLOSINGCLOSINGCLOSING

Here we sit, not knowing where to start. We do know that we're glad it's ended. When you first walk into the room, 112 pages doesn't sound like that much, but it seems like on eternity before you get your first page done. Even worse than the first page is the first forty page deadline. That reminds us; deadlines ore headaches, news tips ore a bore, and news columns ore just one more thing to do, (as if we don't have enough to do already.).

It wasn't all bod; we hod a few laughs here and there. Even though the class was small, the added responsibilities mode each of us realize what a big port we hod in putting this yearbook together.

We would like to thank Mrs. Stillings for all of her support and for her willingness to pitch in and help when we were behind. Thanks also go to anyone who contributed in any way, shape, or form.

We've put a lot of time and effort into this yearbook, and we're sure it's the best yearbook ever. (They soy that every year, and who ore we to break tradition!!!)

Toodles!
